# Emergency Contact Procedures

Police

Fire

Rescue

The most important help you can provide to a victim who is seriously injured is to call for professional medical help. Make the call quickly, preferably from a cell phone near the injured person. If this is not possible, send someone else to make the call from a nearby telephone. Be sure that you or another caller follows these steps.

**1) First dial 9-1-1. If calling from a cellular phone, dial the North Andover Police Department at 978-683-3168. Dialing 911 from a cellular phone will connect you with the State Police who must transfer the call.**

**2) Give the dispatcher the necessary information.** Answer any questions that he or she might ask.

Most dispatchers will ask:

• **The exact location or address of the emergency?** Include the name of the city or town, nearby intersections, landmarks, etc. as well as the field name and location of the facility, if applicable.

Our address is: **Carl Thomas Field No. 1  
55 Dana Street, North Andover, MA**

Cross-streets are: **Marblehead Street & Beverly Street**

---

- **The telephone number from which the call is being made?**
- **The caller's name?**
- **What happened** — i.e., a baseball-related accident, bicycle accident, fire, fall, etc.?
- **How many people are involved?**
- **The condition of the injured person** — i.e., unconscious, chest pains, or severe bleeding?
- **What help is being given** (first aid, CPR, etc.)?

**3) Do not hang up until the dispatcher hangs up.**

The dispatcher may be able to tell you how to best care for the victim.

**4) Continue to care for the victim until professional help arrives.**

**5) Appoint someone to go to the street and look for the ambulance or fire engine and flag them down if necessary.** This saves valuable time. Remember, every minute counts.

- **The telephone number from which the call is being made?**
- **The caller's name?**
- **What happened** — i.e., a baseball-related accident, bicycle accident, fire, fall, etc.?
- **How many people are involved?**
- **The condition of the injured person** — i.e., unconscious, chest pains, or severe bleeding?
- **What help is being given** (first aid, CPR, etc.)?

**3) Do not hang up until the dispatcher hangs up.**

The dispatcher may be able to tell you how to best care for the victim.

**4) Continue to care for the victim until professional help arrives.**

**5) Appoint someone to go to the street and look for the ambulance or fire engine and flag them down if necessary.** This saves valuable time. Remember, every minute counts.

# Emergency Contact Procedures

Police

Fire

Rescue

The most important help you can provide to a victim who is seriously injured is to call for professional medical help. Make the call quickly, preferably from a cell phone near the injured person. If this is not possible, send someone else to make the call from a nearby telephone. Be sure that you or another caller follows these steps.

**1) First dial 9-1-1. If calling from a cellular phone, dial the North Andover Police Department at 978-683-3168. Dialing 911 from a cellular phone will connect you with the State Police who must transfer the call.**

**2) Give the dispatcher the necessary information.** Answer any questions that he or she might ask.

Most dispatchers will ask:

• **The exact location or address of the emergency?** Include the name of the city or town, nearby intersections, landmarks, etc. as well as the field name and location of the facility, if applicable.

Our address is: **Brooks School  
1160 Great Pond Road, North Andover, MA**

Cross-streets are: **Bradford Street & Essex Street**
